Upon opening the door, you'll be greeted by the Bentley emblem projected brightly at your feet, courtesy of LED welcome lamps. Step inside and the elegant addition of a Metal Overlay in the veneer of the doors and fascia elevates the interior aesthetic. The multicoloured LEDs of the Bentley Diamond Illumination twinkling through pinholes in the leather, and the crystal-clear sound of Naim for Bentley premium audio, create a totally immersive ambience.

Emphasising this SUV's rarity are several truly unique additions to its design. A First Edition exterior badge declares the car's individuality on the outside, and a fascia badge reflects this in the front cabin. DESIGN

Awe-inspiring outside.

Long, flowing lines run from front to rear of the beautifully proportioned, sculpted Bentayga Extended Wheelbase – immediately suggesting that this is no ordinary SUV.

The distinctive new vertical vane grille, flanked by elliptical front lamps bearing Bentley's signature 'crystal cut' design, creates a powerful expression when face to face with this extraordinary vehicle. Enhancing the longer profile is the roof spoiler and 'power line' running the length of the car, above which the chrome fender vent is positioned. The impressive, longer rear doors give an indication of the space to be found inside.

Contrast silver bumper valances, front and rear, set against your choice of paint colour, enhance the SUV's commanding presence on the road. From the front, bright-chromed apertures to the bumpers add to the car's character, while 22" 10 spoke wheels, available in painted, polished, and black painted and bright machined finishes, catch the light with captivating effect.

Elliptical tail lamps that reflect those found at the front, and a prominent 'Bentley' badge are set into the elegantly sculpted tailgate which reaches beyond the boundaries of seamless contouring. Oval shaped split tailpipes complete the stunning vision.

From first glance to close inspection, the result is a striking, distinctive and confident identity.

Please refer to Specifications and Options pages 44-47 for standard and optional features. Not all options are available on all models and within all markets.

Inspired inside.

The vast interior of the breathtaking Bentayga Extended Wheelbase exudes luxury in every way, with each handcrafted detail considered carefully and individually.

The distinctive Bentley wings marque inspires the architecture of the cockpit, forming the symmetrical, double-wing arrangement that extends from door to door. The long front console reaches into the rear cabin, with a meticulous design that puts the Touch Screen Remote, USB-C ports and wireless charging within reach of the rear passengers.

The new, dedicated Extended Wheelbase interior colour combination flows through the expansive cabin space for a distinctive and alluring look and feel. The perfect balance of colour, in natural hides, complements the broad expanse of veneer found on the longer rear doors. The new option of a Metal Overlay in the veneer of the fascia panel and doors gives an added layer of detail and refinement.

Every detail can be seen thanks to natural light cascading in through the large, perfectly positioned sunroof. For a more controlled environment, mood lighting can be switched on providing a unique atmosphere – for work or relaxation. The choice to create a calm ambience is at your fingertips with subtle waterfall lighting, while the Bentley Diamond Illumination can be added for breathtaking effect.

Making its mark as a luxury SUV designed for your wellbeing, the new Bentayga Extended Wheelbase Azure features a new, exclusive diamond quilting pattern throughout. This is complemented by graceful Azure badging embedded in the treadplates, as an emblem on the front fascia panel, and embroidered into the seats.

Every inch of this interior is a delight to behold.

Please refer to Specifications and Options pages 44-47 for standard and optional features. Not all options are available on all models and within all markets.

Light your way.

A subtle, yet stunning, addition to the new Bentayga Extended Wheelbase is the Bentley Diamond Illumination. Controlled from the main infotainment panel or the Touch Screen Remote, the effect can be synchronised with mood lighting, or adjusted separately. Changes in the intensity of the light can transform the cabin with remarkable style. A selection of 30 colours dazzle to suit your taste.

This striking and elegant feature, integrated to the front and rear doors beneath hides that are soft to the touch, is unique to this advanced SUV. The mood-enhancing illumination is achieved using LEDs, 12 on each of the front doors and 22 on each rear door, that shine through small perforations in the leather trim of the door panels to dramatic effect.

Such detailed decoration may initially appear understated but, once switched on, has a breathtaking impact, especially when travelling at night.

ENHANCED EXPERIENCE

Uncompromising in every sense.

There's no need to compromise on performance, capability or comfort when you choose the luxurious Bentayga Extended Wheelbase. This commanding car has elevated the SUV to dramatic new levels, combining contemporary design with timeless craftsmanship to deliver an unmistakable aesthetic. Alongside phenomenal power and innovative technology, practicality goes hand in hand with comfort.

Whether you are golfing or skiing, heading across continents or across town, navigating roads or leaving them far behind, the adaptable Bentayga Extended Wheelbase is perfectly equipped for every journey.

A place to relax.

Regardless of where you are, you can rely on the elegant cabin interior to provide you with the comfort you desire, with every element displaying Bentley's famed craftsmanship. The veneers are carefully selected and meticulously mirror-matched to create a seamless flow of wood around the car's occupants.

The refinement continues in the seats, where ergonomically designed cushions and backrests ensure complete comfort. Air ionisers, found in the rear of a Bentley for the first time, form part of an advanced air conditioning system that removes particles and impure contaminations from the air to enhance your wellbeing. Even more advanced wellbeing options are available as part of the Bentley Airline Seat Specification.

The Touch Screen Remote (TSR) system is conveniently located in the rear of the central console, allowing rear

passengers to control a wealth of entertainment and features. These include rear seat massage, heating and ventilation, climate control and sound, for a comfortable and cocooning experience.

To meet your needs for technology and entertainment, wireless phone charging is integrated in the stowage area forward of the gear lever and to the rear of the front console for passengers to charge their devices on the go. Four USB-C ports, two in the front and two in the rear, provide additional connectivity. For true audiophiles, the Naim for Bentley premium audio system promises to give you the best audio quality, from the deepest bass to the highest treble, while the Bentley Rear Entertainment System offers access to a world of TV and film for passengers.

Please refer to Specifications and Options pages 44-47 for standard and optional features. Not all options are available on all models and within all markets.

Refined and practical.

When it comes to the realities of modern luxury living, the versatile Bentayga Extended Wheelbase is a car for all seasons and all lifestyles. Innovative features have been designed to enable a whole spectrum of outdoor pursuits, across a vast range of climates and temperatures – from sea level on the Cote d’Azur to the snowline in the Sierra Nevada – so that your destination can be as exhilarating as the journey.

The robust Bentayga Extended Wheelbase delivers a towing capacity of 3.5 tonnes – more than ample for speedboats, gliders and horseboxes. The electrically retracting tow bar lies behind the rear bumper when not in use.

All features and accessories, from an aerodynamic roof box to a range of tailored storage solutions for skiing, fishing, diving and other active pursuits, offer luxury alongside practicality, whilst maintaining the Bentayga Extended Wheelbase aesthetic. The spacious boot provides substantial storage space, while the hands-free tailgate, easy-load boot function and load assist tray enable effortless opening, closing and loading.

A driver's dream.

The new Bentayga Extended Wheelbase represents another leap forward for SUV interiors – a further evolution of luxury, usability and the latest technology.

Within the precisely considered, handcrafted cabin, both driver and front passenger can enjoy the ultimate in comfort. Every feature has been designed to offer the most satisfying journey. With adjustable cushions and backrests, ventilation, plus six massage settings, the seats of the intuitive Bentayga Extended Wheelbase adapt to you.

Behind the ergonomic, hide-trimmed steering wheel, you'll find the fully digital driver's information panel where you can choose the view that suits your driving style – the traditional two dial design, or an expanded option providing clear visuals of maps and media. An intuitive, high resolution, 10.9" touch screen spans the full width of the centre fascia giving the driver, or front passenger, control of the climate, lighting, infotainment and more.

Passenger perfection.

When seeking the extraordinary, look no further. Behind the extended rear doors, the ultimate passenger experience awaits. As the doors power close behind you, it's time to decide what you want from your journey. Whether you're turning your attention to the in-car entertainment, focusing on work, or watching the extraordinary world go by – you can do it all with unrivalled ease.

The generous dimensions of the spacious Bentayga Extended Wheelbase offer extraordinary rear cabin space for optimal legroom and comfort, with flexible seating arrangements to accommodate two or three in the rear cabin. The new 4+1 Comfort Specification provides outstanding comfort and an exceptionally high level of functionality. The two outer rear seats have 16 different adjustment options, ensuring that passengers can find a perfect seating position. A generous third seat between the outer seats easily accommodates a third adult.

As with the front seats, ventilation, heating and massage take comfortable support to a place of sublime relaxation. It's hard to imagine that such luxury could be extended even further, yet the Bentley Airline Seat Specification invites passengers to recline and stretch their legs.

Whether working or relaxing, your wellbeing will always be optimised.

Please refer to Specifications and Options pages 44-47 for standard and optional features. Not all options are available on all models and within all markets.

First class travel.

Sublime comfort. Unrivalled relaxation. Mood-lifting enhancements: The Bentley Airline Seat Specification makes the passenger experience more akin to that of being flown on a private jet.

Both rear seats recline smoothly, with adjustable bolsters and electric headrests for optimum comfort – while two innovative features, Postural Adjust and Seat Auto Climate, invite passengers to reach new levels of relaxation.

On top of the six massage settings, the groundbreaking Postural Adjust feature keeps the blood flowing and energy levels up on the longest of journeys. Large air bladders move steadily around six pressure points at the shoulders, thighs and lumbar positions. Virtually imperceptible at the lowest of three intensity settings, they prevent extremities from falling asleep and fatigue from building up – no matter how long the journey.

Bentley's exceptional innovation takes intuitive comfort beyond expectation with Seat Auto Climate – a world first in keeping temperature and humidity

regulated, and passengers at ease. Passengers select their optimal climate settings using the Touch Screen Remote. These can be set for the cushions and backrest independently and linked to armrest heating. Sensors recognise body heat and humidity, adjusting heating and ventilation automatically to maintain the desired temperature. Fans pull air in, rather than blow, for a gentler approach to cooling.

Hide-trimmed picnic tables fold down from the seat backs so you can enjoy a relaxing lunch, or set up a laptop, safely, in motion. With the freedom to move effortlessly, the infotainment Touch Screen Remote is within easy reach. Adjust the music from the Naim for Bentley sound system, climate and lighting to create the perfect atmosphere.

Behind the front seat passenger, an electric footrest deploys to deliver a further level of support with 'Business' and 'Relax' switches automatically adjusting the seat from reclined to comfortably upright, and back again – completing the 'first class' experience.

Perfectly controlled, everywhere.

19

The effortless driving experience offered by the exhilarating Bentayga Extended Wheelbase is enhanced by exceptional ride comfort and phenomenal handling, both on and off the road.

Its imposing, yet elegant, demeanour suggests it's ready for anything. Bentley Dynamic Ride and the advanced Torsen All-Wheel Drive (AWD) system, prove it. The AWD system delivers power to the wheels with the greatest available traction, and unwavering confidence to the driver, regardless of terrain or speed. Meanwhile, Bentley Dynamic Ride unites the presence of the SUV with the performance of a sports car and the refinement of a luxury saloon.

Additionally, All-Wheel Steering delivers low speed manoeuvrability, giving the impression of handling a far smaller vehicle, and high speed stability creating a smooth sensation on more dynamic journeys.

To make your drive even more satisfying, the 8-speed transmission ensures optimum gear selection and smooth, irresistible acceleration through multiple gear changes. Engineered to perform perfectly at lateral and longitudinal angles of up to 35°, and in a wading depth of up to 500 mm, this incredible SUV is always waiting for a challenge.

Fast and functional.

Powered by an advanced V8 engine, the formidable Bentayga Extended Wheelbase is forceful and efficient. It offers exhilarating performance and a dynamic driving experience, accompanied by a distinctive sound that announces the car's immense capabilities.

This advanced engine can produce a thrilling surge of power, with 542 bhp (550 PS) at your disposal. It reaches its maximum torque of 770 Nm (568 lb ft) at just under 2,000 rpm and maintains this through to 4,500 rpm. This ensures rapid acceleration whatever your driving speed – taking you from 0 to 60 mph in 4.5 seconds (0 to 100 km/h in 4.6 seconds) and on to a staggering top speed of 180 mph (290 km/h).

The V8 engine isn't just relentless, it's also highly efficient. It employs a Variable Displacement System to shut down four of the eight cylinders when not required, reactivating them again as soon as they are needed without the driver even noticing. 'Start-stop' technology is deployed not only when the vehicle is stationary, but also at 'near-stop' speeds. The result is emissions of just 294 g/km* of CO₂, a combined driving fuel economy of 21.7 mpg (13.0 l/100km)* and a generous range of 406 miles (654 km)*. In short, the V8 engine delivers exhilaration as well as efficiency to create an extraordinary driving experience.

Bespoke commissioning from the expertise of Bentley Mulliner.

In the early days of motoring, drivers bought a vehicle comprising just an engine, drivetrain, four wheels and a set of controls. The rest required a coachbuilder, such as Mulliner. Still, today, no-one is better placed to help make your car an expression of your unique style.

At Bentley, the Mulliner Personal Commissioning team provide bespoke customisation which is virtually limitless. For instance, the colour of any object in your possession can be matched to create your own personal paint colour. The same is true for your hides – any colour you can find, or dream, can be perfectly matched and made for you only.

The team in Crewe can also create personalised embroidery for your seats, handstitched from any design of your choosing. Not to mention exquisite marquetry inlays to your veneers, manifesting your unique vision through timeless artisan craft.

To explore the endless possibilities, simply visit the [website](#), or ask your Retailer about the Personal Commissioning Guide.

Exterior finish.

Colour can be a powerful expression of who you are. That's why we offer a wide range of exterior colours carefully curated by the Bentley design team, each one chosen to emphasise the unique presence of your Bentley Extended Wheelbase on the road. You can choose from seven standard exterior colours, with 16 on the Azure model, that range from the understated to the bold, or you can include the extended range to give you a total of around 60 colours.

Should you desire something that truly stands out, you can explore the Bentley Mulliner range of exquisite paint options, which are available in solid, metallic, satin and pearlescent options. Alternatively, if you have an exact colour in mind – whether it's found on a favourite item of clothing, flower, or piece of art – Mulliner offers a bespoke colour matching service that can create a paint option which is entirely personalised to you. Compelling veneers.

Our obsession for fine materials and handcrafted finishes can be clearly seen in the flawless veneers of the new Bentayga Extended Wheelbase. And there's a vast range to choose from, including options that deliver an impeccable, contemporary look and feel. Such as the tactile open pore veneers that let you feel the natural grain of the wood through ultra-thin lacquer. Or the new painted Piano Linen by Mulliner finish that complements every colour combination available.

Sustainably sourced from forests around the world, each leaf of wood can be traced right back to the tree it came from; the beginning of an intricate process that takes around five weeks for every car. The resulting shine is both lavish and deep, beautifully highlighting the natural grain of the wood. There's the added option of a Metal Overlay in the veneer of the fascia panel and doors – a Bentayga Extended Wheelbase exclusive.

If you'd prefer sportier surroundings, explore our latest eye-catching technical finishes, including high-gloss Carbon Fibre or the stunning Dark Tint Diamond Brushed Aluminium, where each diamond is brushed in three directions to give an exceptional, textured 3D effect finish.

Natural hides.

Every inch of your car's interior is upholstered by hand. Crafting the hand-selected leather hides is a time-honoured process involving skills that take years to learn.

From the fascia to the blind stitching, the cabin requires a specialised approach throughout. Sections of the hide with high natural elasticity are reserved for curved surfaces like the seats, rather than for piping or flatter areas such as door inserts. The steering wheel, meanwhile, is covered in a highly resistant leather to ensure the natural chemicals from the driver's skin are not absorbed, creating grip, comfort and longevity.

The Colour Specification included with all Bentleyga Extended Wheelbase models extends your choice of hide colours from five to 15. The range has been carefully selected by the Bentley design team and is available in a choice of colour combinations. Each one lets you express your individual style while complementing the interior perfectly.
